Unreviewed Safety Question Procedure Submittal"

Dear Mr. Beach:

NNSA/LSO is aware of the timing for the implementation of the approved LLNL Onsite Nuclear Materials Transportation Safety Document (TSD). To facilitate this implementation, LSO approves LLNL's use of the existing approved procedure for evaluating changes associated with the TSD (references 1 and 2); however, LLNL shall not use Appendix H of the referenced existing procedure.

If you have any questions, please call Sarah E. Spagnolo at 423-3250.

Sincerely,

Camille Yuan-Soo Hoo
Manager
